You come across a small safe box with a number lock while clearing your attic. On it, is a picture and note written in your grandfather's handwriting, which says...

You realize that you need to align 6 digits of the number lock to a particular combination which opens the box. What must it be?

"Don't judge the contents of a box by its size. May these square boxes, whatsoever their AREA maybe, guide you as does a compass which shows the eight directions in your quest to obtain something valued by our family which lies inside this box. Remember, UNITY is always at the centre of this family. May you too be RAISED in your thoughts, words and deeds, ascending to greater heights..."

The bold shall come,
The astute shall see,
But only the mighty shall conquer
This immense challenge ably
Let the talents of Bach guide you,
In this Automated century,
Your key is not white overlaid with black
But something else entirely.
